Educating young Australians for a sustainable future

Cool Australia's Flagship School Program in 2012

Cool Australia has completed its successful Our Cool School pilot program in Victoria in 2011 with a selection of participating primary and secondary schools.

For the 2012 school year we are offering schools this unique opportunity to be involved with Cool Australia's National Flagship Program.

The Flagship School program requires the participating school to use the learning activities on sustainability in the classroom. The whole school can choose to embed the program for a single term or the entire year. Teachers can sign up on a class-by-class basis.

Flexibility is key! Teachers are free to pick and choose activities that suit them. There is no obligation to follow an entire module.

Cool Australia will provide individual support for the participating teachers during the duration of the Flagship School Program.

The OCS program is designed to compliment existing learning activities as well as providing new ideas and inspiration to help students realise a sustainable future.

Schools who successfully register will:

Be officially recognized as a Cool Australia flagship school

Have free access to all of our online teacher resources and learning activities

Have access to our online support via email and 1300 853 810 phone support

Be invited to join in our annual Enviroweek campaign as part of the Cool Australia community

Be invited to contribute to the ongoing teachers' conversation on Facebook

On completing the program ACER will be conducting research on our behalf to measure the success of the Flagship School Program. As a result your school will be presented with a certificate of achievement.

How to register?

Please contact Lynn Freebairn on lynn@coolaustralia.org or Szilvia Csanyi on szilvia@coolaustralia.org or on 1300 853 810.
