

NEW AT THE STATE LIBRARY OF NSW

Programs for **gifted & talented** students

The State Library of NSW is a treasure trove of resources which will excite and challenge your students.

Our upcoming **Antarctica uncovered!** workshop offers an opportunity for students to explore, interpret and create their own unique response to the world-renowned Antarctic collection.

Students will develop the research skills necessary to uncover the stories of exploration in this remote and mysterious area. Using primary sources such as maps, diaries and photographs, they will immerse themselves in the sights and sounds of Antarctica and use this information to write and perform a short play.
