

AIS Primary Conference: Paving the way for learning with the Australian Curriculum

1st & 2nd September 2010

Abbotsleigh Junior School
Woonona Avenue, Wahroonga

The Australian Curriculum provides schools with a unique opportunity to re-examine the nature of quality learning for primary students. This conference will support teachers to develop curriculum that enables students to become successful learners, confident and creative individuals who are active and informed citizens.

Join us for an in depth review of the new curriculum and an exploration of productive learning within subject areas using the ten general capabilities, cross curriculum perspectives and the integration of technology.

For more information please go to www.aisnsw.edu.au/pd

KEYNOTE SPEAKERS:

Dr Julia Atkin is an independent education and learning consultant who has worked with educators in Australia and internationally. Her work is characterised by an innovative approach that bridges the gap between theory and practice. She has received a number of prestigious awards in recognition of her work.

Professor Denis Goodrum has been involved in many national and international activities in science education including the preparation of the Framing paper for the Australian Science Curriculum. He was previously Dean of Education at the University of Canberra but is now Director of the Science by Doing project with the Australian Academy of Science.

Dr Jan Turbill is a Senior Fellow in the Faculty of Education, University of Wollongong. Jan served on the ACARA English Curriculum Advisory Panel during 2009. She is currently President of the Australian Literacy Educators' Association.

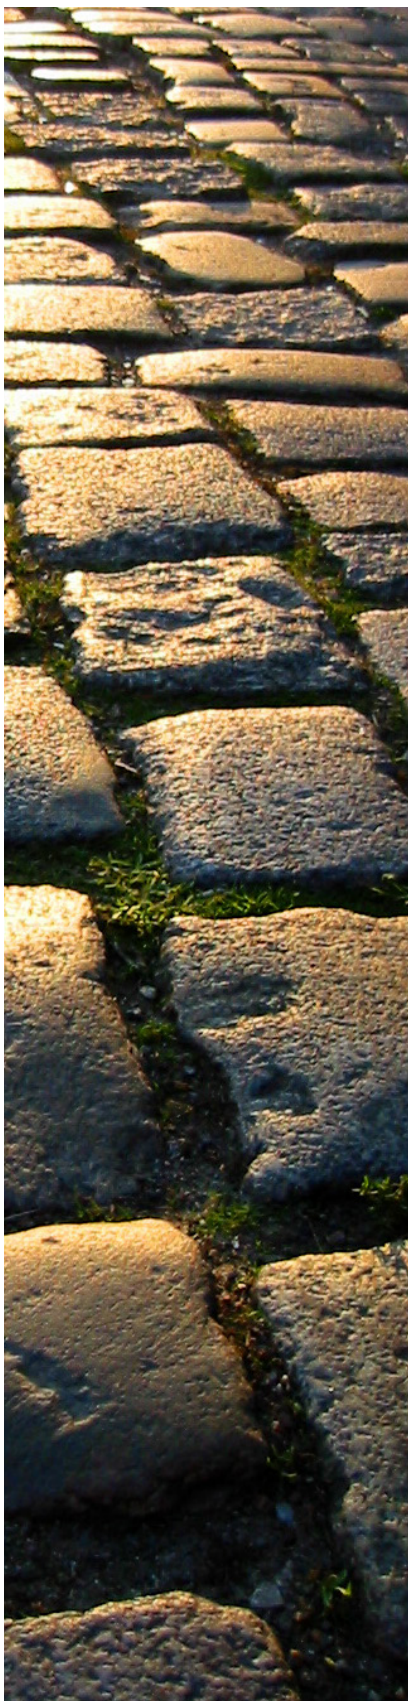

Dr Carmel Fahey is a lecturer in history Education in the Faculty of Education and Social Work, University of Sydney. She has also been involved in professional development programs for primary teachers of HSIE in New South Wales, South Australia and Northern Territory. Carmel is the co-author of *Making History: A guide to the teaching and learning of history in Australian schools*.

Dr Judy Anderson is Associate Professor, Mathematics Education in the Faculty of Education and Social Work at the University of Sydney. As the Immediate Past President of the Australian Association of Mathematics Teachers (AAMT), she provides leadership and ongoing support for teachers of mathematics throughout Australia.
