

Who should attend?

Principals, IT Managers, IT Support staff, Teachers

Why you should attend?

This is an affordable, accessible investment in your learning. We appreciate the education sector has limited funds, but we have managed to put together a conference package that is inclusive of absolutely everything. From the time you enter the hotel to the time you leave 3 days' later, all costs including accommodation, meals, workshops and transport are covered.

- **Hear** leading keynotes from key presenters within the education ICT sector as they share insights into technology and learning.
- **Engage** in a range of sessions regarding developments in teaching and learning via workshops, presentations and unconference sessions from research experts and peers.
- **Share** experiences and network with over 250 of your peers from independent, DEC and CEO schools from across Australia. Discuss, debate and take-away. This is a second-to-none networking opportunity.
- **Examine** educational technology solutions with key vendors.
- **Communicate** your ideas and successes and discuss your challenges.
- **Tailor** the conference to meet your needs. Choose workshops from any of 5 streams (Digital Citizenship, Management, Strategy, Teaching and Learning and Delivery) as well as focused vendor sessions, and an extensive unconference program.
- **Discuss** critical success factors and innovative practices with your peers.

Professional Standards addressed in this conference

3.4.3

Assist colleagues to create, select and use a wide range of resources, including ICT, to engage students in their learning.

4.4.3

Initiate and take responsibility for implementing current school and/or system, curriculum and legislative requirements to ensure student wellbeing and safety.

4.5.3

Model, and support colleagues to develop, strategies to promote the safe, responsible and ethical use of ICT in learning and teaching.

7.2.3

Support colleagues to review and interpret legislative, administrative, and organisational requirements, policies and processes.
