

CREATING SAFER INDEPENDENT SCHOOLS – Session 2

 All staff

SD 4.4.3, 7.1.3 and 7.2.3 (NSW)

 Half day, min. 4 hours

About this program

This in-school consultancy is designed to further develop and tailor a school's child-safe strategies to ensure they are doing all that is possible to protect students in their care. It delves more deeply into the wheel of safety, with participants engaging in practical application of the wheel to the school's context. This session assists schools to review and assess against the Child Safe Standards.

Who is the program for?

All staff can benefit from participating, in particular, principals, deputy principals, senior executives, business managers, human resource managers or those in schools with responsibilities in leadership, policy development, pastoral care and/ or wellbeing. It is recommended that participants complete the AISNSW Reportable Conduct online module prior to attending this session. In addition, it is recommended participants have completed *Creating Safer Independent Schools – Session 1*.

What does the program include?

The program draws on current research and provides a range of practical strategies and tools to assist schools to examine the Child Safe Standards and how schools can implement these in their Schools to demonstrate best practice. It covers topics such as:

- Child Safe Standards
- the NSW child protection legislative context
- creating a culture of safety
- Professional Boundaries
- school review/self assessment

Please note that this training contains sexual abuse material including video footage of news stories and partial interviews with sexual offenders.
