The Evidence Institute Data Repository

The Evidence Institute Data Repository offers the following data to member schools at no cost.

**Preschools, Schools, and Education**

Includes data from ABS, AEDC, MySchool, AGDESE

- Children in preschool
- Australian Early Development Census
- Students in Government, Catholic and Independent primary and secondary schools
- Religious affiliation and parents’ birthplaces for students in Government, Catholic and Independent primary and secondary schools
- Characteristics about teachers in government and non-government schools – age, gender, and religious affiliation
- Every school’s enrolments, staffing, funding, and NAPLAN trends
- Your school’s enrolment and staffing trends (this is not provided to other schools)

**Population, Community, Housing, and Economy**

Includes data from ABS, Australian Department of Health, Planning NSW, Local Government

- Population by age and gender, births, population mobility
- Population forecasts
- Characteristics about the community including religion, birthplace, language spoken at home, and family size
- Socio-economic measures, income
- Building approvals and the value of approvals, number of houses sold, median house price
- Employment, and the occupations and industries that people work in
- The number of new and closed businesses

Contact Crichton Smith, Senior Researcher and Analyst, at csmith@aisnsw.edu.au or at (02) 9248 3750 to discuss your data and geographical catchments.

Visit the AISNSW Demographic and Funding Analysis Services webpage for other services.
