
Preparing for online learning

A how to guide on Tasks and Due Work

Learning remotely

Accessing your work via CH@LK

For the next two days you'll be learning from home, to trial our remote learning procedures in the event we cannot work from school.

Loreto Kirribilli, Sydney

Resources

You have access to all the resources you need for remote learning.

Teachers have placed class work on CH@LK, using either Tasks or Due Work. You will also use Education Perfect, Edrolo, Atomi or other online learning packages.

You will have access to Microsoft Teams, so you can chat with your teacher, and they may hold webinars during your class time to help you answer questions.

Edrolo

Work will be diverse

Your learning will look and feel different when you work remotely.

You can expect to some work online, some in books, and other tasks, similar to what you might do at school.

You should check in regularly, collaborate with your peers, and be diligent at managing your time and learning.

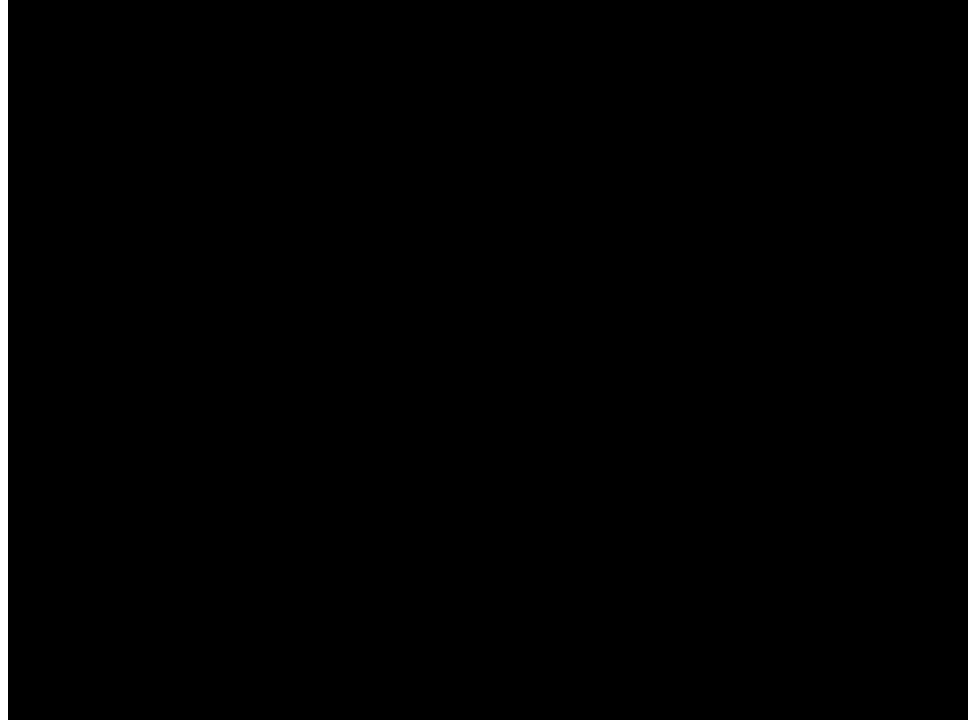

Accessing and completing Tasks
