Address:

(c) AGEID (Australian Government Education ID, formerly DEEWR number):

.....

(d) Contact Person for this project:

Name:

Position:

Telephone:

Email address:

Whole-school Road Safety Education Project Details

Schools are invited to apply for funding of up to \$3,000 (excluding GST) to support a Whole-school Road Safety Education based project to be implemented in 2023. These projects are supported by funding from Transport for NSW under the School Road Safety Education Program.

Schools are well-placed to support students to advocate for themselves and others to enhance health, safety and wellbeing. The focus of the 2023 Whole-school Road Safety Education Funding Opportunity is to develop and enhance knowledge, skills, attitudes and positive behaviours in children and young people in relation to K-12 health, safety and wellbeing.

Projects must have a focus on road safety (primary/secondary).

Project focus areas may include, but are not limited to, the examples below tailored to meet the needs of your students and school context.

- Developing a whole-school approach to road safety.
- Building the capacity of teachers to develop an effective, evidence-based Year 11 and 12 road safety education initiative delivered in-school (rather than one-off events).
- Supporting Aboriginal and Torres Strait Islander students to attain their drivers' licences through attainment of birth registration and certification, in addition to by PDHPE teaching and learning.
- Parent/carer/family education as part of a broader whole-school approach to road safety.
- Integrating technology into a student wellbeing initiative and/or PDHPE unit of work related to road safety e.g. virtual reality, iPads.
- Reviewing and developing consistent messages and a shared language related to whole-school approaches through road safety.
- Supporting students to find solutions to real world problems in the local school context in the area of road safety through project-based learning (PBL).
- Teacher release for NSW PDHPE K-10 syllabus programming support with links to road safety education.
- Teacher release to explore and look for opportunities to incorporate resources and skills specific to the development of the greater concept of road safety as part of a specific PDHPE unit of work, year group or whole-school initiative.

As a component of this funding opportunity, an AISNSW consultant will provide support to schools to facilitate the project, up to the equivalent of a one day consultancy at no-cost. Schools must include this time in their planning and timeline.

A maximum of 10% of the funding may be used for the purchase of resources. The funding cannot be used for the purchase of capital items or for student excursions, guest speakers or purchased programs.

Please complete the following information about the school's proposed Whole-school Road Safety Education Project.

SECTION 2: Project Description

Project title:

Outline the proposed aims and outcomes of your project.

Describe your project in detail.

SECTION 3: Benefits of the Project

Explain how your project will promote student wellbeing through initiatives that focus on K-12 road safety.

SECTION 5: Declaration

I declare that:

- I have read the Application Guidelines pertaining to this project
- The information provided in this application is correct-
- I am aware that this information will be used to determine funding, support and accountability
- All required supporting documentation has been provided.

Principal's Name:

Principal's Signature:

School:

Date:

Please note that applications will not be considered
unless this declaration is signed by the Principal and returned
to AISNSW with your application.

Should you have any questions regarding applying for this funding opportunity, please contact AISNSW PDHPE Consultant [Katrina Mostyn](#) or on 02 9299 2845.

Please retain a copy of your application and email a signed copy no later than 5pm on the due date to:

E: kmostyn@aisnsw.edu.au

No late submissions will be accepted

5pm on Friday 28 April 2023
