Kids to Farms Program

PARTNERSHIP FOCUS:

- Incursion
- Guest Speaker
- Curriculum and Industry Insights

TARGET GROUP: Year 4

SCHOOL: Wahroonga Preparatory School

PARTNER: NSW Farmers Association

Kids to Farms Program

BENEFITS FOR SCHOOL

Teachers and students gaining knowledge about:

- the life of a farmer, how farming practices
- the lifecycle of food production is changing due to technology
- sustainable farming practices
- impacts of environmental change.

BENEFITS FOR PARTNER

- Increasing brand recognition.
- Informing educational practice, contribute to skill development, and enrich capabilities of the future workforce.
- Increasing awareness of issues and ideals of public Importance.

PARTNERSHIP

Kids to Farms is a program aimed at increasing awareness in primary-school students about where our food and fibre comes from.

NSW Farmers Association aims to increase engagement between primary schools and farmers through their Kids to Farms: 2 by 12 program: each child in NSW to have 2 educational interactions with the agriculture industry by the time they are 12.

- Schools collaborated with NSW Farmers to design and deliver a face-to-face incursion which allowed students and educators to meet a farmer and gain an understanding of critical elements of the Food and Fibre syllabus areas.
